PROFESSIONAL SUMMARY

Entry-level Software Engineer (M.Sc. Computer Science) with hands-on internship experience in full-stack web development using Python Django, Java, and JavaScript, including React. Skilled in building RESTful APIs, responsive front-end interfaces, and working with relational databases, gained through real-world projects and training programs. A fast learner with strong problem-solving skills, seeking to bring technical expertise and enthusiasm to a growth-focused development team.

EXPERIENCE

Junior Software Engineer Intern

Jan 2026 – Jun 2026

Sumago Infotech Pvt. Ltd. — Nashik, MH

- Developed, tested, and deployed web applications using Python Django framework, optimizing backend logic to improve performance and scalability.
- Built and consumed RESTful APIs using Django REST Framework (DRF), enabling seamless integration between front-end and back-end modules.
- Wrote clean, maintainable code in Python and JavaScript while collaborating in an Agile team, reducing bugs through peer code reviews and consistent coding standards.
- Designed responsive front-end interfaces using HTML, CSS, and Bootstrap, improving usability and visual consistency on mobile and desktop.
- Optimized MySQL database schema and queries, improving data retrieval efficiency across core application modules.

Full Stack Developer Trainee

Jul 2024 – Dec 2024

Profound Edutech Nashik — Nashik, MH

- Completed an intensive 6-month Full Stack Web Development training in Java, covering both front-end and back-end technologies.
- Designed and developed end-to-end web applications using Java, HTML, CSS, JavaScript, and Bootstrap, from requirement analysis to deployment.
- Applied object-oriented programming principles (OOPs) to build modular, reusable back-end logic, reducing code duplication across project modules.
- Managed relational databases using SQL, performing CRUD operations and writing optimized queries that improved data access speed.

EDUCATION

Master of Science in Computer Science (M.Sc. CS)

Jun 2024 – Jun 2026

KAANMS College, Satana, Nashik

Bachelor of Science in Computer Science (B.Sc. CS)

Jul 2021 – Apr 2024

KAANMS College, Satana, Nashik | CGPA: 7.00

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C, C++, SQL

Frameworks & Libraries: Python Django, Django REST Framework (DRF), React, React.js, Bootstrap, Android

Web Technologies: HTML5, CSS3, JavaScript (ES6+), PHP

Databases: MySQL, SQLite

Developer Tools: VS Code, MySQL Workbench, CodeBlocks, Git

Core Concepts: OOP, DBMS, Operating Systems, Computer Networks, Cyber Security

Soft Skills: Leadership, Problem Solving, Time Management, Communication, Decision Making

PROJECTS

Smart Society Web Application

Developed a comprehensive web application to streamline housing society management, including member communication, maintenance tracking, and administrative tasks. Built a dynamic, component-based resident dashboard using React, and implemented full-stack features with user authentication and role-based access control.

Technologies: Python, Django, React, HTML, CSS, JavaScript, Bootstrap, MySQL

CERTIFICATIONS

- Cloud Computing — NPTEL
- ChatGPT, Artificial Intelligence, Python, and IoT — ExcelR
